Chamberlain's Notice.

The Religious Services on the occasion of the funeral of His late Royal Highness the Prince Consort, will take place at Iolani Palace, on SUNDAY, the 6th instant, at 12:30 o'clock p. m.

Seats will be set apart for the Chancellor of the Kingdom, Her Majesty's Ministers, the President of the Legislative Assembly, the Justices of the Supreme Court, Members of the Court, Members of the Privy Council of State, the Nobles and Representatives of the Legislative Assembly, the Diplomatic Representatives of Foreign Countries, the Consular Corps, Heads of Government Bureaus, and their Ladies.

JAMES W. ROBERTSON,
Chamberlain of the Royal Household.
Iolani Palace, Sept. 5, 1891.
2859-2t

The Court will go into full mourning for His late Royal Highness the Prince Consort from the date of this notice until two weeks after the funeral, and will wear half mourning from that time until the expiration of two months from the day of the funeral. Ladies will wear black with white trimmings for full mourning, and white with black trimmings for half mourning.

All members of the Government and all persons connected with the Court, will wear black suits and hats, and crapes on the left arm during the period of full mourning. All Representatives of Foreign Countries, Consuls and Commercial Agents are invited to observe the period of mourning herein prescribed, and the Public generally are requested to show their respect for the memory of His late Royal Highness by wearing badges of mourning during the time specified.

JAMES W. ROBERTSON,
Chamberlain of the Royal Household.
Iolani Palace, Aug. 29, 1891.
2859-6t 1391-1t

His Royal Highness the Prince Consort John Owen Dominis departed this life at Washington Place, Thursday, the 27th inst.

By this sorrowful event the marriage relation of Her Majesty with the deceased happily subsisting through many years has been severed and the nation through the death of the Prince Consort has lost a tried and familiar friend.

Therefore, be it resolved by the Privy Council of State here assembled, that we tender to Her Majesty our profoundest sympathy in this her time of grief and bereavement, and we commend her for comfort and solace to Almighty God.

Resolved, That by the death of the Prince Consort, this Council has lost an honored and esteemed member, one of the eldest in service among us, with whom we now part with sorrowful regret, a member loyal to the Crown, and held in high regard by the nation.

Resolved, That the members of this Council wear the customary mourning.

Resolved, That a copy of these Resolutions be presented to Her Majesty and that they be entered on the records of this Council.

C. P. LAUKEA,
Secretary Privy Council of State.
Iolani Palace, August 31, 1891.
2856-4f

It has pleased Her Majesty the Queen to appoint the following named gentlemen to be members of Her Privy Council of State: HIS ROYAL HIGHNESS PRINCE DAVID KAWANAKOA, HON. SANFORD B. DOLE, GEORGE C. BECKLEY, ABRAHAM FERNANDEZ, D. P. R. ISENBERG, JOHN RICHARDSON, Iolani Palace, August 31, 1891.

FOREIGN GLEANINGS.

It seems that Mr. Blair will be no more acceptable to Russia than to China, as he is said to have directly accused the Czar's Government of encouraging drunkenness in order to profit by the tax on brandy.

Col. Vogel, an officer of the German Navy, who has been two years in the Chinese service examining gunboats and fortifica-

tions, arrived at San Francisco from Shanghai on the 24th. He spoke with considerable freedom to a reporter of the Chronicle, and said that he had recently talked with Li Li, the son of Li Hung Chang, Viceroy of China. Li Li states that the secret society Ko-Lao holds great sway throughout the country from Canton to the Yang-tse-Keang, a distance of 700 miles, and he does not doubt that there will be an overturning eventually but not immediately. The secrets of the society are very closely kept. If anybody talks, off goes his head, consequently no one talks, and no one knows exactly what is what, or who is who, but the Tartar dynasty feels it.

There are ten foreign ships in the Yangtse, besides two or three big Chinese cruisers. In the Woosung are eight big Chinese cruisers, two or three gunboats and seven foreign war vessels.

"The discontent of the Chinese is with the dynasty. There are so many people and they are increasing so fast, and so permanent is the discontent that those in power see the end coming."

Tacoma capitalists have purchased the immense De Lion floating dock projected for Port Townsend, and have capitalized the Dry Dock Company at \$300,000. The dock will be finished next month.

A total of thirty-five bodies have been recovered from the ruins of the building which collapsed in Park place, New York. By their names they appear to be almost all German or of German descent. The building was erected in 1872 and had never been considered unsafe.

An expert who has been employed for thirty-five years in placing printing machinery, says that the resting place for the floor was insufficient to support the enormous weight on it. On the third floor alone stood nearly forty tons of machinery.

Queen Victoria shortly after reviewing the French fleet at Spithead telegraphed to President Carnot, "I wish to express to you the great pleasure I have had in receiving Admiral Gervais and his officers at Osborne, and how much I admire the French squadron which I have just reviewed."

The French President replied, "I beg Your Majesty to accept my sincere thanks for the gracious reception you were good enough to accord to Admiral Gervais and his officers, and also for the sentiments expressed in regard to the French fleet."

The death, in London, of the Rt. Hon. Henry Cecil Raikes, Postmaster-General of Great Britain, took place on the 24th August. Mr. Raikes was born in Scotland in 1838, he was educated at Shrewsbury school and Cambridge, was called to the bar in 1863 and entered Parliament in 1868. In 1886 Lord Salisbury appointed him Postmaster-General.

The Emperor of Germany has shown himself again on horseback in public. In a speech at a banquet at Berlin on the 24th he said, "We all hope for peace, and should war come it will not be our fault."

It is announced that the Venezuelan Congress has rejected the reciprocity treaty proposed by the United States.

Mr. and Mrs. Stanley have left Switzerland for Paris. Stanley has almost recovered from the injury to his leg which he sustained through a fall while at Meruau.

The sealing schooner Sayward returned to Victoria from the Behring sea with 800 skins. She is the first to return without being ordered to leave the sea. The captain says that seals were plentiful and that he could have doubled his catch but his Indian crew became afraid of seizure and insisted on returning home.

The State Board of Railroad Commissioners have addressed a letter to the Manager of the Union Pacific informing him that the entire line of the Kansas Central Railroad must be rebuilt without delay with a new steel track, or steps will be taken to revoke the road's charter.

A water cart was among the curiosities sent to Lahaina yesterday from the Hall. It is smaller than those used in this city, but quite ornamental in its appearance, having on the rear end, painted very conspicuously, the advertisements of several of our enterprising business houses, who are convinced that it pays to advertise now in Lahaina. A gentleman standing on the wharf as the cart swung aboard remarked, "Lahaina ought to have had a sprinkling cart one hundred years ago." That's so.

ORDER OF PROCESSION.

The Procession will be under the direction of Col. the Hon. C. P. Laukea, Office of the Governor of Oahu, Sept. 4th, 1891.

CORRESPONDENCE.

We do not hold ourselves responsible for the statements made, or opinions expressed by our correspondents.

Mr. Editor: Last evening a member of my household ran against an article of furniture, nearly upsetting a lighted lamp which was being carried.

This incident reminded me of the fact that there was no water in the pipes and the only water I had in my house was about an inch in the bottom of our tub, which was the remainder of half a tub full that I had caught the previous night, the balance having been used for kitchen and household purposes.

Now I thought if my house had caught fire, and the Fire Department had turned out to help me, what would they have done? Why, they would have joined with my family in seeing it burn to the ground because there would be no water to put it out with.

Now I have several thousand dollars insurance on my house and furniture, and while it would be annoying to be burned out and lose many things that could not be replaced, the burden of the loss would fall on the insurance company.

Now insurance company if you had to pay me five thousand dollars to-day because there was no water in the pipes last night, what would you do about it? Why, I suppose that you would pay the bill just the same, but for your future protection I should think that you would send a polite but urgent protest to the Minister of the Interior and to the Superintendent of the Water Works, asking that your property rights be protected, and that arrangements be made as quickly as possible to remedy this danger.

The housekeeper has been long protesting, and now it is no more than that the insurance men should have a say.

The Superintendent of the Water Works has done his best, and with toil, ingenuity and watchfulness to an extent little known to the public in general, has made a little water spread out as much as possible to give all a share.

I want it understood that I do not write this piece for the purpose of blaming the Superintendent of Water Works, for I think that with the present means at his disposal he could do no better, but my purpose is to bring more forcibly before the public and the Government a great need and danger.

Now for the practical point, and this is, that as has already been written in your column, the result of an inspection of a small-sized Blake pumping plant, pumping from only two of the twenty-two artesian wells at Ewa Plantation, shows that its capacity is more than equal to the whole average supply of Honolulu, and in the opinion of many a similar plant placed in Honolulu over the same number of wells, and probably not having to run more than on an average of three months in a year, would save us henceforth and forever from another water famine.

If there is at present a water appropriation from which it can be taken, it ought to be attended to at once; if not, then it ought to be one of the first things to be attended to at the next Legislature which even then may be too late to be ready again for the summer of 1892.

MONDAY, August 31.

Anyone who knows anything about crockery knows that for every-day-knock-about stuff, England sends us the best. A good deal of it is too thick for use in private families, but some of it is made of medium thickness and is serviceable. By the "Anna Johnson" which arrived the other day we got a lot of this quality, and it has turned out cheaper and better than we expected. The plates and saucers are all regular—not a misfit in the whole bunch.

We've never handled toilet sets, but there has been such a demand that we included some in an English order. The ewers are all latest shapes and nicely decorated; not gold and silver, you know, but just a neat bunch of flowers here and there on a prettily tinted ground, a cluster of roses here and sprig of something else there. The sets will improve the appearance of any bedroom and you won't be extravagant either. We give them away—for a song. Come in and sing to us.

Understand we make a specialty of Haviland China because it is the finest and because there are certain capital features about it that other decorated ware does not possess. You can duplicate any piece broken. You can't do that with any other decorated ware but, some people want full sets for same certain meal. They've called for them and we had to order them; not special orders, but just so as to have them in case someone else should call. We haven't many, but what we have are beauties. One set has a white ground with a tiny blue forget-me-not in a sort of lei around the top of the cups, and on the edge is a gold band and the same on the other pieces. The effect is certainly very pretty. The cups, by the way, are not of the conventional pattern, but are decidedly odd in shape.

We have another set of an indescribable color. Odd enough for anyone.

They're pretty to look at even if you don't want to buy them; the door is open, step in and see them.

We've called your attention several times to an adjustable fly or mosquito screen; they're a good thing and you want one. If you prefer something not adjustable we have a frame made especially. It is adjustable to a certain size, then you tack it together and put on your wire cloth. The frame is neat and strong and very, very cheap.

We've imported some very handsome brass chandeliers and electroliers with colored shades. This week we will have a large invoice of lamps, some of which may suit your fancy.

If you're thinking about painting your house we have paints of every imaginable color—from elephant's breath to Mozambique blue. Oils, varnishes and brushes go with them, and if you are a little bit handy you can do some painting yourself. A few dollars go a long way in paints at our store.

Have you seen the pictures of the Aermotor in our window? They give you an idea of what they can do.

OREGON KIDNEY TEA

Is the Most Wonderful Medical Discovery Modern Times.

CURE'S BACKACHE

—AND—

KIDNEY TROUBLE

It is strictly a vegetable production and will not injure the stomach nor the most delicate woman, but will cure pain in the back and kidneys, retention of urine, diabetes, inflammation of the bladder or kidneys, deposit in urine, leucorrhoea, painful or suppressed menstruation, and all complaints arising from a diseased or debilitated state of the urinary organs of either sex.

Many mistake the pains arising from defective action of the kidneys, rheumatism, and in attempting to cure the latter by outward applications entirely to reach the seat of the disease. We do not offer the OREGON KIDNEY TEA as a specific for rheumatism, but are satisfied that many cases of rheumatism would yield to its remedial virtues.

The leaf is put up in air tight tin caddies which preserve intact the properties and the decoction is made by the person using it, thus securing solute purity.

There are thousands afflicted with diseases of the kidneys or organs who suffer in silence rather than make known their troubles. Others, by the use of various patent medicines, which, if they do not aggravate the disease, at least do not lessen it. Even those who secure the advice of a physician often fail to get relief, owing to the very complicated and delicate nature of organs affected.
